Disclaimer: The purpose of this briefing is to provide a **Regional** weather threat assessment and is meant as a general overview. County/Parish decision makers should consult their local NWS forecast offices for the latest detailed, local weather information. To find your local NWS forecast office, go to <http://www.srh.noaa.gov> and click on the "Weather Forecast Offices" tab and click on the map for your area.

FEMA Region 6 Weather Threat Briefing

Wednesday, November 23, 2016

Issued: 0800 CT

Day 1 Weather Hazards: Showers and storms will continue to move east and out of Region 6 today; severe weather not expected.

National Weather Service

Southern Region Headquarters
Regional Operations Center
Fort Worth, TX

Prepared by: Adam Baker
817-978-1100 x 147

Key Points

Today

- Showers and a few storms are possible over southeastern portions of the Region during the day, but severe weather and/or flooding is not expected

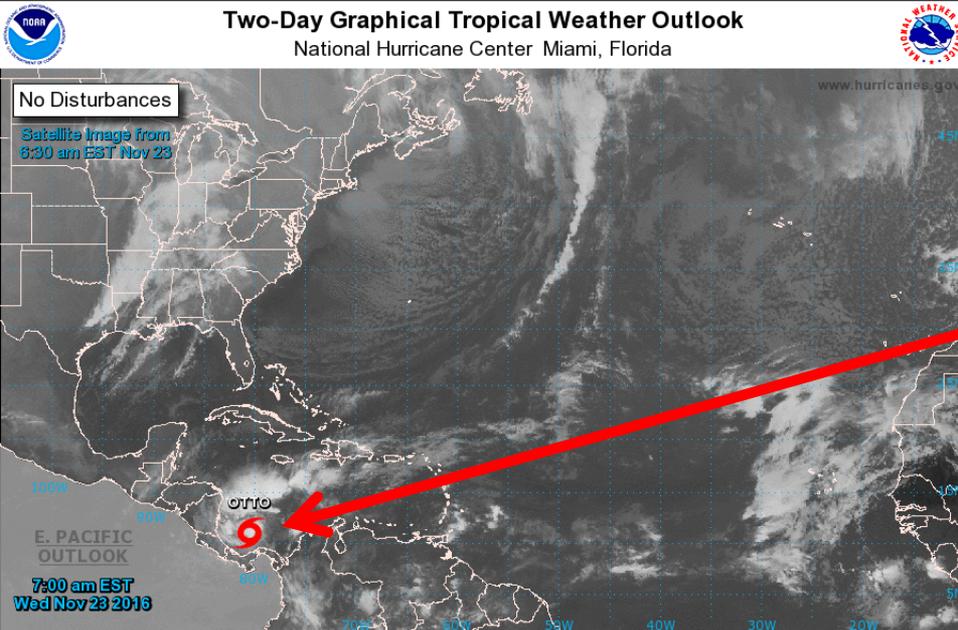

Thursday - Sunday

- Quiet weather expected Region-wide for Thanksgiving into the weekend with just a few showers/storms possible in the far south
- Next system looks to develop Monday/Tuesday over central and eastern portions of the Region

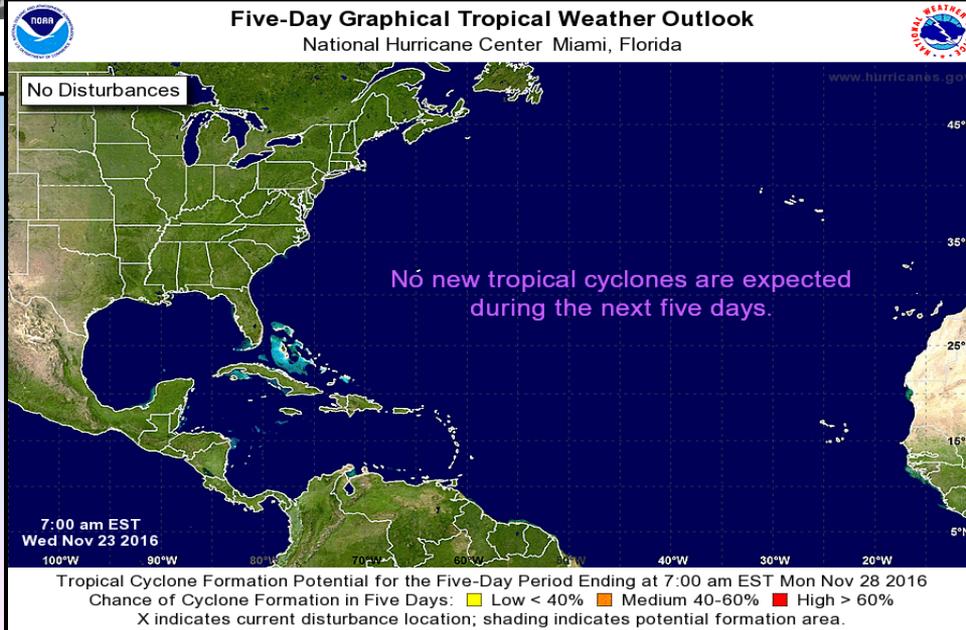

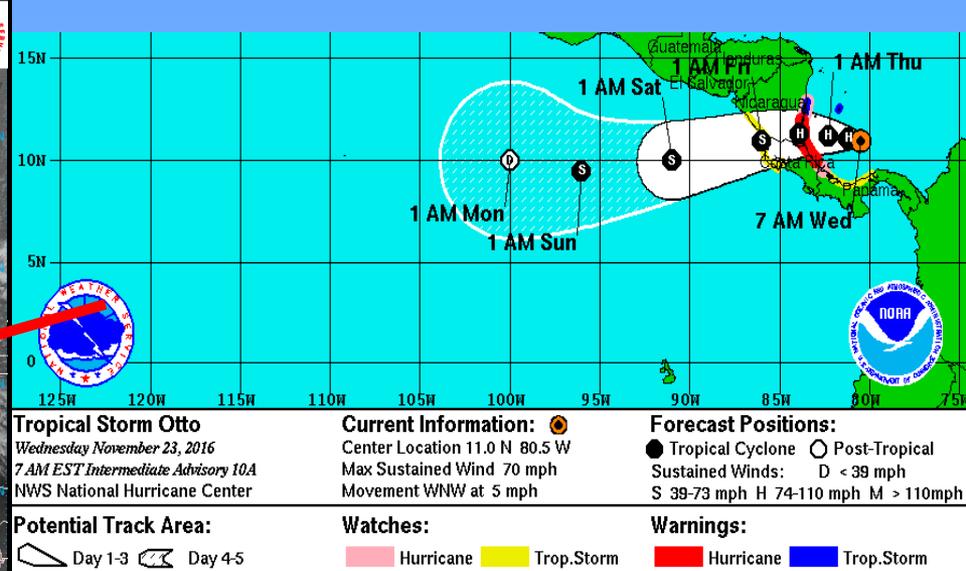

Tropical Outlook

- Tropical Storm Otto continues to move slowly west across the southwestern Caribbean Sea. While some strengthening is forecast, the track stays well south of the region - No impacts to FEMA Region 6

Tropical Weather Outlook

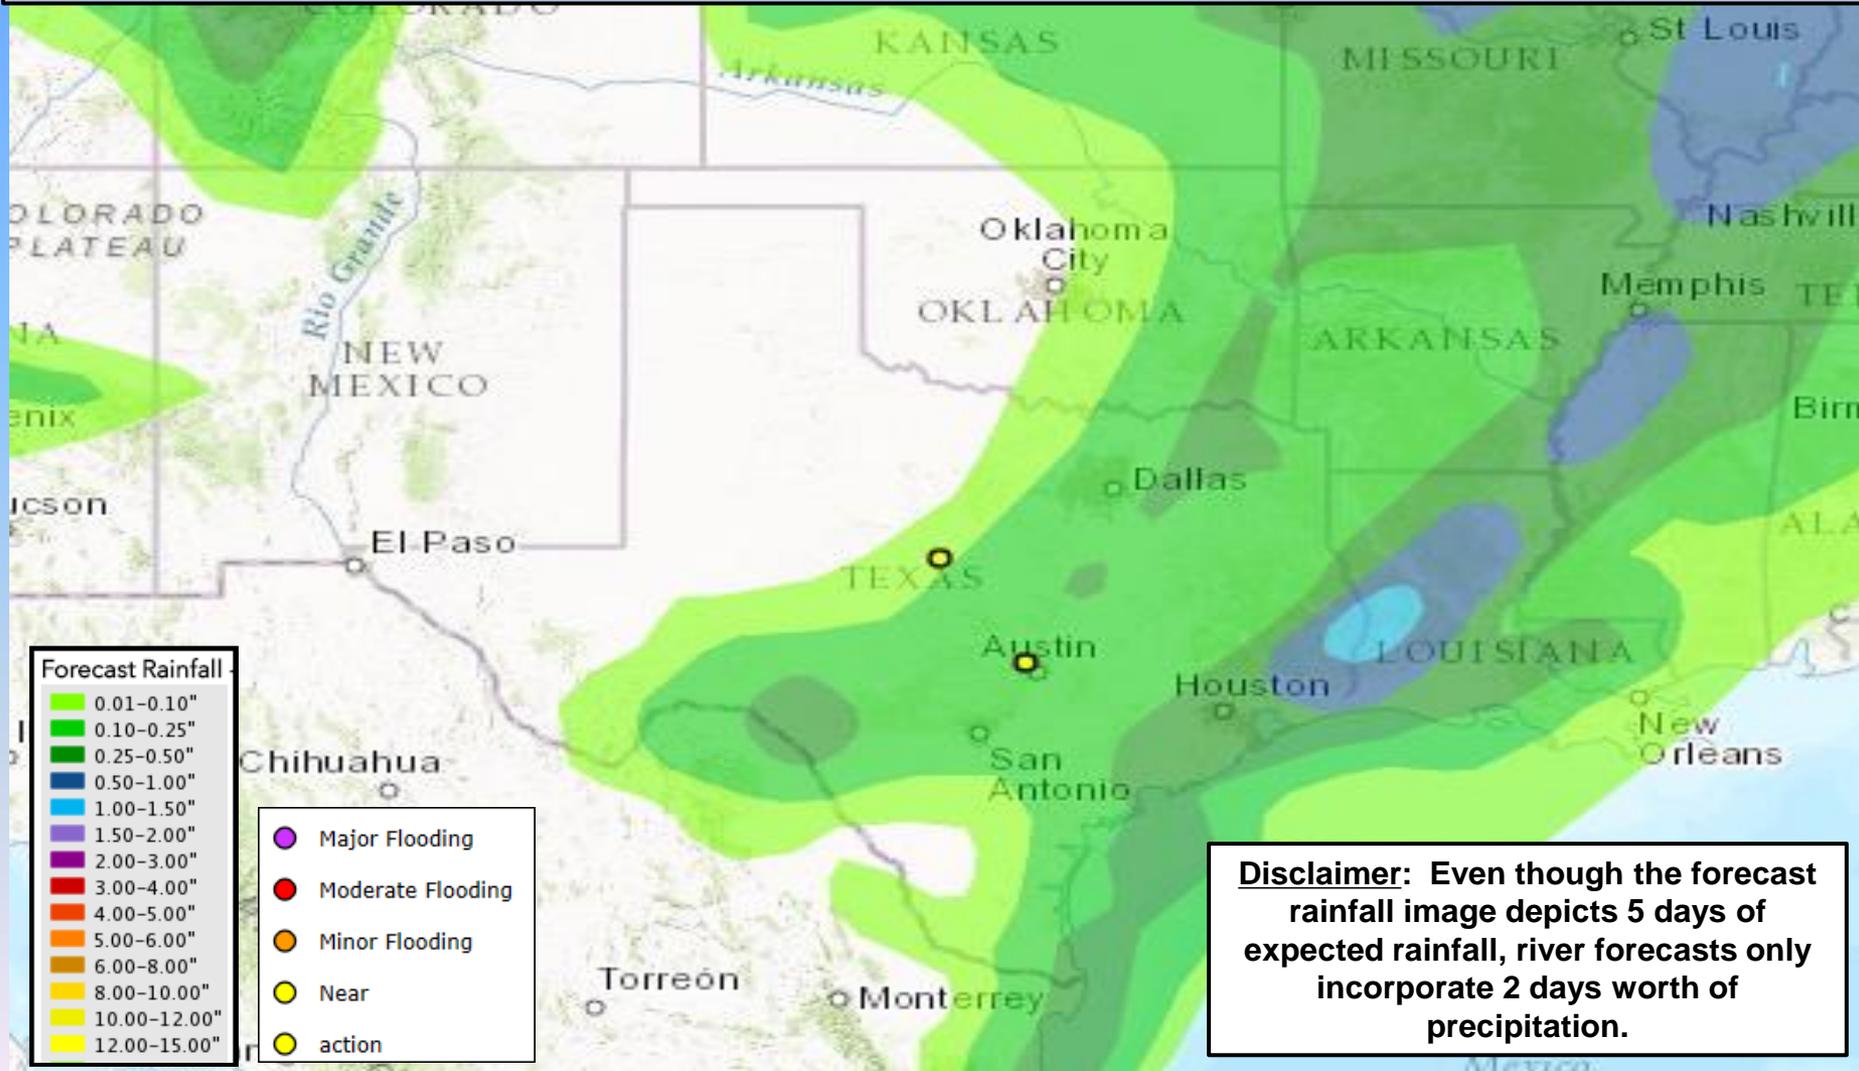

Current Disturbances and Two-Day Cyclone Formation Chance: < 40% 40-60% > 60%
Tropical or Sub-Tropical Cyclone: Depression Storm Hurricane
 Post-Tropical Cyclone Remnants

No new tropical cyclones are expected during the next 5 days.

5-Day Precipitation Forecast & River Flood Status

There is currently no significant river flooding observed/forecast across the Region.
