Take the Course

Start with the Basics

The Course is a weekend or evening class with both classroom instruction and on-cycle experience. Learn the basics—riding in a straight line, shifting, cornering and proper braking. Discover how motorcycles operate and what protective clothing is best for safety and visibility. Understand how alcohol and drugs affect your ability to handle your ride.

You'll ride away with the knowledge and skills that give you the edge in unexpected situations—the dangers that are always out there.

Come ready to learn. We supply the motorcycle, helmet and training. Whether you're 18 or 80, your instructor—an experienced rider—teaches you the skills you need to take the road.

Take the Road

To a rider, there's not much better than a scenic Texas back road. But getting there on city streets can be tense. Controlling a motorcycle requires special skills and best learned from a trained certified instructor.

Take the time. Take *The Course*.
Then you're ready to take the road!
