

CISA
CYBER+INFRASTRUCTURE

GETS/WPS DIALER APP NOW AVAILABLE

The Cybersecurity and Infrastructure Security Agency (CISA) dialer app provides a simplified way to make GETS and WPS calls:

- Eliminates dialing errors
- Convenient Call Log:
 - speeds up calling process
 - allows the user to recall previously dialed numbers quickly, without the need to go back into the phone's contact list to look up a number
- Available for:
 - Apple iPhones (iOS version 11 and later)
 - Android phones (OS version 2.2 and later)
 - Blackberry devices (OS version 5.0 to 7.x)
- **Free!** Install information at:
<https://gets-wps.csgov.com/apps/>

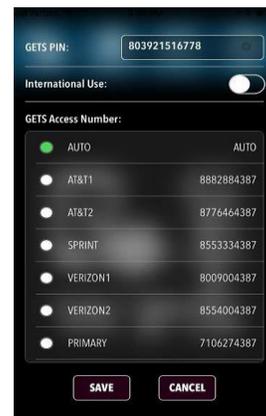

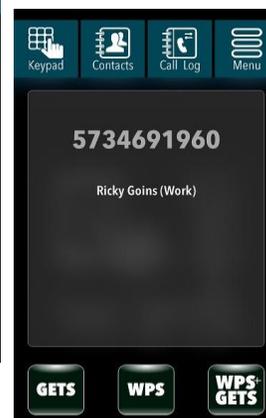

For questions or problems related to the app,
contact User Assistance:

Call: 800-818-4387

Email: support@priority-info.com

*** If there are restrictions on installing apps, user
should contact their IT department ***

For additional resources, visit
www.dhs.gov/pts-videos

**Since the debut of
the dialer app,
ECD has seen a
40% reduction in
GETS user dialing
errors**
