ESTIMATED TOTAL PROJECT COST: \$

PRE-AWARD COST: \$

FEMA FUNDING (75%): \$

Costs directly related to preparing the sub-application such as BCA (Benefit Cost Analysis) development, the gathering of environmental data, and project design meetings, must be a separate line item included in the total project cost breakdown and identified as pre-award costs to be eligible for uses as non-federal costshare. If the project does **not** receive federal approval and grant funds are **not awarded** then you will **not** receive reimbursement for pre-award costs.

LOCAL MATCH (25%): \$
