

Statewide Communications Interoperability Plan (SCIP) Strategic Planning Session

“Why We’re Here Today”

- ❖ To refresh the Texas Interoperable Communications Plan and meet the specific March 2007 DHS/SAFECOM 10-step criteria for Statewide Communications Interoperability Plans

- ❖ To develop long-term strategic initiatives and short-term critical initiatives that will immediately and directly impact communications interoperability across jurisdictions and agencies.

- ❖ Because all future federal grant applications must be in accordance with the SCIP and coordinated through the State Administrative Agency.

- ❖ Because all plans must be submitted to DHS by Sept. 30, 2007 to be eligible for the PSIC grant.
