UCR NIBRS Overview w/ Hate Crime & Cargo Theft

OBJECTIVES

The student will be able to:

1. Identify IBR, CAT, and Agency staff roles and responsibilities
2. Recognize NIBRS Basic Reporting Rules, Definitions, and Verbiage.
3. Recall how to use the IBR website and the Report center.
4. Analyze information to report Hate Crime accurately.
5. The student will be able to interpret incident information to report Cargo Theft correctly.

IBR & CAT STAFF ROLES & RESPONSIBILITIES

Customer Service Reps - guide agencies through NIBRS certification (testing) process, assist with agency accounts and system issues, assist with agency profile issues, answer questions, and contact agencies on delinquent reports.

Quality Control Analysts - perform quality control checks on NIBRS data, communicate with FBI about data, contact agencies when there are quality control concerns and questions, and generate the Crime in Texas annual report.

Trainers – conduct training both virtually and in-person, answer questions, assist with errors and coding offenses, and perform onsite visits along with one-on-one training.

Grants

CJD oversees the distribution of discretionary funds from the state's allocation of Justice Assistance Grants (JAG) to eligible agencies.

One of the possible qualifications for funding eligibility is participation in the UCR program.

To qualify as a UCR reporter, agencies must have sent the UCR program data, including zero reports, for each month for the year in question.

What steps can be taken to remain grant eligible?

1. Each local law enforcement agency (LEA) should ensure timely and accurate reporting to the UCR program.
   - Reports are to be submitted by the 10th of the month. You should have a designated person to submit reports and a backup for that person.

2. LEAs should communicate with the state UCR program any time they experience technical issues that may affect their NIBRS submissions.

3. City and County officials should be aware of grant funding requirements and have monitoring in place to ensure compliance.

Uniform Crime Reporting Program (UCR) Overview
The objective of the Uniform Crime Reporting (UCR) program is to produce accurate crime statistics for law enforcement administration, operation, and management.
As of September 1, 2023, House Bill 4879 went into effect mandating all Texas criminal justice agencies to implement a NIBRS compliant RMS and to submit monthly NIBRS data to the Texas Department of Public Safety UCR Program. The current total number and list of participating agencies can be viewed under Texas Incident-Based Reporting Agencies.

NIBRS Technical Documentation

This page was developed for agencies and vendors to understand the current specifications used and accepted by the Department, as well as the most up to date information on user manuals and plans for transition. If you have questions regarding the information provided below, please email NIBRS.

NIBRS Technical Specifications

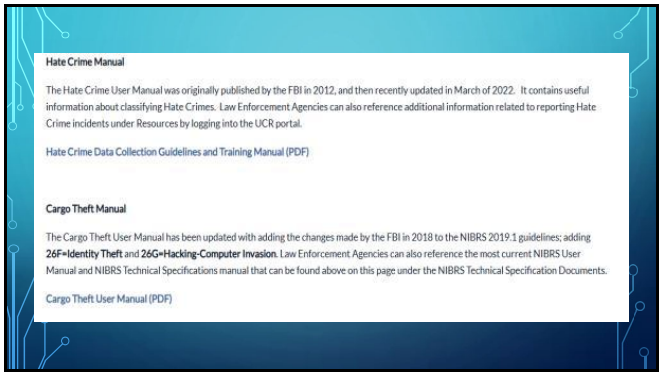
The Department currently accepts the following NIBRS flat file versions:

Version	Document Name
2023.0	NIBRS Technical Specification Document (PDF)
2019.2.1	NIBRS Technical Specification Document (PDF)

NIBRS User Manual

The Department is currently utilizing the FBI's NIBRS User Manual:

Version	Document Name
2023.0	NIBRS User Manual (PDF)
2021.1	NIBRS User Manual (PDF)



Hate Crime Manual

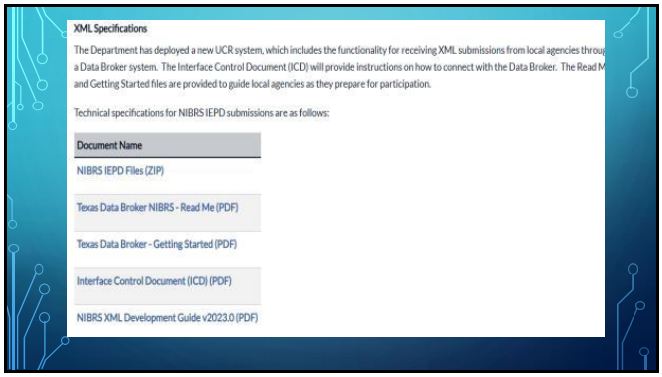
The Hate Crime User Manual was originally published by the FBI in 2012, and then recently updated in March of 2022. It contains useful information about classifying Hate Crimes. Law Enforcement Agencies can also reference additional information related to reporting Hate Crime incidents under Resources by logging into the UCR portal.

Hate Crime Data Collection Guidelines and Training Manual (PDF)

Cargo Theft Manual

The Cargo Theft User Manual has been updated with adding the changes made by the FBI in 2018 to the NIBRS 2019.1 guidelines; adding **26F=Identity Theft** and **26G=Hacking-Computer Invasion**. Law Enforcement Agencies can also reference the most current NIBRS User Manual and NIBRS Technical Specifications manual that can be found above on this page under the NIBRS Technical Specification Documents.

Cargo Theft User Manual (PDF)

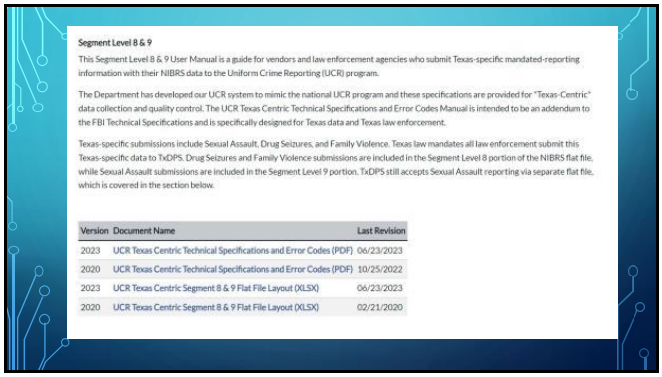


XML Specifications

The Department has deployed a new UCR system, which includes the functionality for receiving XML submissions from local agencies throu a Data Broker system. The Interface Control Document (ICD) will provide instructions on how to connect with the Data Broker. The Read M and Getting Started files are provided to guide local agencies as they prepare for participation.

Technical specifications for NIBRS IEPD submissions are as follows:

Document Name
NIBRS IEPD Files (ZIP)
Texas Data Broker NIBRS - Read Me (PDF)
Texas Data Broker - Getting Started (PDF)
Interface Control Document (ICD) (PDF)
NIBRS XML Development Guide v2023.0 (PDF)



Segment Level 8 & 9

This Segment Level 8 & 9 User Manual is a guide for vendors and law enforcement agencies who submit Texas-specific mandated-reporting information with their NIBRS data to the Uniform Crime Reporting (UCR) program.

The Department has developed our UCR system to mimic the national UCR program and these specifications are provided for "Texas-Centric" data collection and quality control. The UCR Texas Centric Technical Specifications and Error Codes Manual is intended to be an addendum to the FBI Technical Specifications and is specifically designed for Texas data and Texas law enforcement.

Texas-specific submissions include Sexual Assault, Drug Seizures, and Family Violence. Texas law mandates all law enforcement submit this Texas-specific data to TxDPS. Drug Seizures and Family Violence submissions are included in the Segment Level 8 portion of the NIBRS flat file, while Sexual Assault submissions are included in the Segment Level 9 portion. TxDPS still accepts Sexual Assault reporting via separate flat file, which is covered in the section below.

Version	Document Name	Last Revision
2023	UCR Texas Centric Technical Specifications and Error Codes (PDF)	06/23/2023
2020	UCR Texas Centric Technical Specifications and Error Codes (PDF)	10/25/2022

UCR IS...

A collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime based upon statistics. (common language)

NIBRS programming includes the Texas mandated reports:

- **Family Violence**
- **Drug Seizure**
- **Hate Crime**
- **Sexual Assault is also mandated and is included in your NIBRS file with Segment 9 programming.**

Manual entry method for Texas sexual assault reports WILL BE sunset.

NIBRS Codes

- **CRIMES AGAINST PERSONS**
- **CRIMES AGAINST PROPERTY**
- **CRIMES AGAINST SOCIETY**

24 Group A crime offense categories
52 specific Group A crimes

7 Group B offense categories

36B – STATUTORY RAPE

We have removed 36B. There is no Texas law to support this NIBRS code. Whichever penal code the officer uses should translate to 11A, 11B, or 11C or a combination of those.

FBI definition of the Statutory Rape

Non-Forcible sexual intercourse with a person who is under the statutory age of consent. There is no force or coercion used in Statutory Rape; the act is not an attack. LEAs should classify an offense as Statutory Rape based on the state's Statutory Rape Laws and the findings of the LEA's investigation.

SEXUAL ASSAULT OFFENSES

Sex Offenses		
Rape	11A	Person
Sodomy*	11B *Converts to 11A	Person
Sexual Assault With An Object*	11C *Converts to 11A	Person
Fondling	11D	Person
Incest	36A	Person

TX Sex Offense Code	Sexual Assault Offenses	As defined under Penal Code Section	CJIS Code Table Citation Reference
01	Continuous Sexual Abuse of Young Child or Children	21.02	21.02(b)
02	Indecency with a Child by Contact	21.11(a)(1)	21.11(d)
03	Indecency with a Child by Exposure	21.11(a)(2)	21.11(d)
04	Sexual Assault	22.011	22.011(a)(1 and 2)
05	Aggravated Sexual Assault	22.021	22.021 22.021(a)(2)(b)
06	Sexual Performance by a Child	43.25	43.25(c and e)
07	Indecent Assault - Group A (11D)	22.012(a)(1)	22.012(b)
08	Indecent Assault - Group B (90C)	22.012(a)(2,3 or 4)	22.012(b)
09	Sexual Assault Donor w/o Consent	22.011(b)(12)	22.011(f)(2)

NIBRS VERBIAGE

Unfounded

An agency will receive a complaint that is determined through investigation to be false or baseless. In other words, no crime occurred. If the investigation shows no offense occurred nor was attempted, then the offense is deemed unfounded.

The recovery of stolen property, the low value of the stolen property, the refusal of the victim to cooperate with the prosecution, or the failure to make an arrest does not unfound a legitimate offense. Also, the findings of a coroner, court, jury, or prosecutor do not unfound offenses or attempts that law enforcement investigations establish to be legitimate.

NIBRS RULES

Jurisdiction Guidelines

- Agencies report only those arrests made for offenses committed within their own jurisdictions
- This includes warrant arrests (only report those arrests in which the warrant originated with your agency)
- The recovery of property is reported **only** by the jurisdiction from which it was reported stolen.
- The agency that made the arrest may have possession of the stolen property to report.

JURISDICTION GUIDELINES EXAMPLE

- Deputy Barney Fife stopped a speeder in his city of Mayberry.
- After running the plate, he finds out the car was stolen from the city of Pine Valley.
- Deputy Fife then arrests the driver and impounds the car.
- He calls Pine Valley PD and lets them know the car has been recovered.

JURISDICTION GUIDELINES EXAMPLE

- Mayberry will report the 280 with no property.
- The LEA would report a 280 = Stolen Property offense and shows the property loss code of 1 = none.
- **Agencies must report the type of criminal activity (up to 3):**
  B = Buying/Receiving, D = Distributing/Selling,
  P = Possessing/Concealing, T = Transporting/Transmitting/Importing
- What if there was a warrant from another agency?
- Deputy Fife would take the driver in on the warrant and impound the car.
- Mayberry does not report any of this in their NIBRS report.

NIBRS CLEARANCE

- In NIBRS, you clear incidents rather than individual offenses.
- Incidents may be cleared **only** by arrest or exceptional means.
- You cannot clear an incident by exceptional means if it was already cleared by an arrest.
- There will not be clearance for Justifiable Homicide
- LEAs must not confuse clearing an incident with administratively closing an investigation or changing the case status.

NIBRS CLEARANCE

Cleared Exceptionally

1. The LEA investigation must have clearly and definitely established the identity of at least one offender.

2. The LEA must have sufficient probable cause to support arresting, charging, and prosecuting the offender.

3. The LEA must know the exact location of the offender so they could make an arrest if circumstances did not prevent it.

4. There must be a reason outside the control of the LEA preventing the arrest, charging, and turning over for prosecution. (i.e., A through E).

Cleared Exceptionally Reasons

A = Death of Offender

B = Prosecution Declined (by the prosecutor for other than lack of probable cause)

C = In Custody of Other Jurisdiction (includes extradition denied)

D = Victim Refused to Cooperate (in the prosecution only)

E = Juvenile/No Custody (the handling of a juvenile without taking him/her into custody, but rather by oral or written notice given to the parents or legal guardian in a case involving a minor offense, such as petty larceny)

N = Not Applicable (not cleared exceptionally)

Disposition of Arrestee Under 18

The word ***arrest*** as it applies to juveniles (17 years of age or younger at time of arrest) is intended to mean the law enforcement handling of those juveniles who have committed a crime and are taken into custody under such circumstances that, if the juvenile were an adult, an arrest would have been reported.

LEAs should report any situation where they handle/process a young person for a violation of the law.

H = Handled Within Department (released to parents, released with warning, principal, counselor, etc.)

R = Referred to Other Authorities (turned over to juvenile court, probation department, welfare agency, other police agency, criminal or adult court, etc.)

NIBRS Quality Control Issue

NIBRS UNKNOWN OFFENDER

There are two different kinds of unknown offenders in NIBRS reporting:

Absolute Unknown offender - 00

when the victim or agency doesn't know if one or multiple offenders committed the offense (i.e., Burglary of a house). Offender demographics and relationships are not required and must be left blank.

Known Unknown offender - 01

When the number of offenders (s) who committed the offense(s) are known but the age, sex, race, and ethnicity are unknown.

The offender would be assigned a sequence number from 01 to 99.

Age would be 00 = unknown

Sex, Race, & Ethnicity would be U = Unknown

NIBRS UNKNOWN OFFENDERS

Absolute Unknown offender - 00

A family comes home from vacation to find their house has been burglarized. They don't have security cameras, and the Neighbors didn't see anything.

All the other statical fields should be blank. No relationship code

Known Unknown offender – 01, 02, 03

Your Officer responds to a call about a break-in. A Neighbor that was locking up their house for the night saw people at the front door of the house across the street. They knew a family was away on a trip. The Neighbor yells at the people that the police have been called. Three people are seen running from the house with stuff in their arms.

- The offender would be assigned a sequence number from 01 to 99.
- Age would be 00 = Unknown
- Sex, Race, & Ethnicity would be U = Unknown
- Relationship code should be RU = Relationship Unknown

BUT WHAT ABOUT ERRORS AND WARNINGS?

It is the responsibility of the submitting agency to review the errors and warnings received with each flat file upload and make the necessary corrections. (to be included in the next submission)

You receive an Error Report for every file uploaded. It tells you which incidents need corrections. Incidents with warnings need to be reviewed.

Valid incidents (with warnings only) are uploaded to the repository and forwarded to the FBI for review.

Keep in mind incidents with errors will not be uploaded into the repository, they will not get counted in your agency's crime statistics and will not be forwarded to the FBI for publications.

CRIME IN TEXAS ONLINE PORTAL

https://txucr.nibrs.com

The Crime in Texas (CIT) Online Portal is for the public to review UCR data from TX agencies.

The information included in the portal is updated as agencies submit data. Therefore, we tell agencies that they need to review their data and submit updates and corrections each month.

Within the Reports section of the portal, data is split between NIBRS, Summary, and Texas Specific reports.

HATE CRIMES

A committed criminal offense that is motivated, in whole or in part, by the offender's bias(es) against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.

Hate Crimes are not separate, distinct crimes, but rather traditional offenses motivated by the offender's bias.

Definitions from:

FBI Hate Crime Data Collection Guidelines and Training Manual

NIBRS OFFENSE CODES

These are examples of offenses and not an exhaustive list

BIAS MOTIVATION

Race/Ethnicity/Ancestry Bias
Religious Bias
Sexual Orientation Bias
Gender Bias
Gender Identity Bias
Disability Bias
88 = None (No Bias)
99 = Unknown

NOT Protected:
While law enforcement officers and judges were given protected status by Texas in 2017, they are not a federally protected class.

CAUTIONS

1. Case by Case - Reporting agencies must examine each case for facts which clearly provide evidence that the offender's bias motivated him/her to commit the crime.

2. Misleading Facts - Agencies must be alert to misleading facts.

3. Feigned Facts - Agencies must be alert to evidence left by the offenders which is meant to give the false impression that the incident was motivated by bias.

CAUTIONS

4. Offender's Mistaken Perception - Even if the offender was mistaken about the victim's race, religion, disability, sexual orientation, ethnicity, gender, or gender identity, the offense is still a hate crime if the offender was motivated, in whole or in part, by bias against that group.

5. Changes in Findings of Bias - If, after an initial incident report was submitted, a contrary finding regarding bias occurs during the investigation, the FBI UCR Program file must be updated with the new finding.

HATE CRIME SCENARIO

A young heterosexual white man went to several Asian spas where he shot six female staff members and 14 patrons. Three of the women succumbed to their injuries. After being apprehended, the suspect told police that he believed he had a "sex addiction" and had gone to the spas to "eliminate temptation."

What is the NIBRS reportable offense(s)?
09A Murder – 3
13A Aggravated Assault – 17

Is This a Hate Crime?
Yes

What is the bias?
62 - Anti-Female Gender

HATE CRIME SCENARIO

In a parking lot next to a bar, a 29-year-old Japanese American male was attacked by a 51-year-old white male wielding a tire iron. The victim suffered severe lacerations and a broken arm. Investigation revealed the offender, and victim had previously exchanged racial insults in the bar. The offender initiated the exchange by calling the victim by a well-known and recognized slur used against the Japanese and complained the Japanese were taking away jobs from Americans.

What is the reportable NIBRS Offense?
13A Aggravated Assault
Is this a Hate Crime?
Yes
What is the bias?
14 - Anti-Asian

HATE CRIME SCENARIO

A white juvenile male snatched a woman's purse, and in doing so, knocked her down and called her by a well-known and recognized slur used against Jews.

What is the reportable NIBRS Offense?

120 Robbery (strong arm)

Is this a Hate Crime?

Need More information

Agency should report 88 = None

Because the facts are ambiguous, agencies should not report this incident as bias-motivated until the investigation positively concludes that the offender's bias was a contributing factor in the crime. If the agency determines the incident was not bias-motivated, then your report already has 88 = none as the bias code.

CARGO THEFT

For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the destination, regardless of any temporary stop while awaiting transshipment or otherwise.

7 Suspects are now waiting for trial.

Cargo Theft Myth - ***The stealing of mail from a postal truck, a package from a porch, food from a restaurant driver or food delivery service is cargo theft.***

At this point, the items (mail, household good, meal) are no longer commercial shipments because they are not in the supply chain.

The 2023 NIBRS User Manual pg. 72 states:
"LEAs should consider thefts of goods being delivered to a business from United Parcel Service (UPS), Federal Express (FedEx), the U.S. Postal Service, etc., to be cargo until the items arrive at the business, or final distribution point.

Grocery orders, Food delivery, stealing packages from mailboxes is not cargo theft.

CARGO THEFT SCENARIO

While at a rest stop for the night, a truck driver went over to his friend's rig to hang out. The two drivers saw two people walking around all the Tractor Trucks with trailers attached. When the truck driver returned to his rig to sleep, he checked his trailer. He found both locks and the seals on the doors broken. The trailer had been completely full of pallets of energy drinks. He opened the doors and saw the trailer was now only half full.
