

CRIME RECORDS DIVISION IBR COMPLIANCE & TRAINING UNIT

All Texas law enforcement agencies are required to undergo a Texas DPS Incident Based Reporting Quality Assurance Review (QAR) to ensure compliance with Texas Government Code 411.054.

The Incident Based Reporting QAR consists of two parts:

- Questionnaire covering agency information and mandated reporting
- Random sample of incident(s) from your agency.

Texas DPS is mandated by the FBI to triennially (3-year cycle) audit all Texas law enforcement agencies to ensure accuracy of crime data.

The IBR Compliance & Training Team strives to make this process as minimally invasive and streamlined as possible.
