SHIPPING, DELIVERY, AND PACKAGING

Identification of Shipments and Documentation:

In addition to the complete destination address, each delivery must be clearly marked with the purchase order number. Each shipment must be accompanied by a packing slip.

Packaging and Labeling

All items shipped must be properly labeled, with weather resistant labeling, showing the brand name, package quantity, lot number (if applicable) and any other necessary identifying information.

Special Delivery Requirements

TXDPSs may have specific, internal delivery rules and policies. These will be provided on each purchase order issued by TXDPS. Bidder will be required to adhere to those requirements.

Hours of Delivery

Bidder must deliver during the hours of 8:00 am to 4:00 pm based on TXDPS's time zone. Bidder is encouraged to obtain TXDPS's hours of operation at time of order.

Prior approval by TXDPS is required for after-hours delivery. In the event of any approval by TXDPS for after-hours delivery, Bidder may not invoice any additional charges for that delivery.

Delivery Schedule

Bidder will furnish, in the space indicated on the Mandatory Price Sheet, a delivery schedule for each line item as to time required for delivery after receipt of order (ARO) under normal conditions.

Delivery Days means calendar days, unless otherwise specified. Failure to state delivery time may disqualify Bidder.

The proposed number of delivery days (calendar) after receipt of order may be considered in the evaluation for award.

Delivery Delays

If delay is foreseen, Bidder must give written notice to TXDPS and must keep TXDPS advised at all times of status of order. Default in promised delivery (without accepted reasons) or failure to meet specifications authorizes TXDPS to purchase goods and services of this IFB elsewhere

and charge any increased costs for the goods and services, including the cost of re-soliciting, to the Bidder. Failure to pay a damage assessment is cause for Contract cancellation.

Compliant Products

Providing products or materials that do not meet all specification requirements does not constitute delivery. Delivery does not occur until the Bidder delivers products or materials in full compliance with the specifications to TXDPS's F.O.B. destination, unless delivery is specifically accepted, in whole or in part, by TXDPS. TXDPS reserves the right to require new delivery or a refund in the event that materials or products not meeting specifications are discovered after payment has been made.

RETURN, CANCELLATION, AND RESTOCKING FEE:

TXDPS may request that Bidder accept return of merchandise that meets specifications and has already been delivered or that Bidder cancel an order prior to delivery. If Bidder does not agree to TXDPS's request, TXDPS and Bidder must attempt to resolve the matter. If TXDPS and Bidder are not able to reach a mutually acceptable resolution, either or both of the Parties (TXDPS and Bidder) may contact the TXDPS Contract Administrator. TXDPS, in its sole discretion, will determine if the merchandise return request or order cancellation request, as applicable, must be accepted by Bidder. If TXDPS determines that the merchandise will be returned or the order cancelled as originally requested by TXDPS and the return is determined by TXDPS to have resulted through no fault of Bidder, Bidder may request a reasonable restocking charge. TXDPS may pay a restocking charge (no more than 10% of the cost of the item) if TXDPS determines that the charge is justifiable; however, TXDPS will not pay restocking or other fees for cancellations requested prior to shipment by Bidder.

Warranty/Guarantee

The products proposed are to be warranted against defects in workmanship and material.

The warranty/guarantee will run for a minimum of one (1) year from the date the product is inspected and accepted by TXDPS. If no time or specific protocol for acceptance is specified elsewhere in the Contract or TXDPS purchase order, items are presumed accepted thirty calendar days after receipt.

Condition of Products

Proposed and delivered products must be new, unused, of current production, and in first class condition, including containers suitable for shipment and storage, unless otherwise specified in the solicitation.

Quantities

TXDPS does not guarantee a specific volume to be purchased throughout the term of the Contract. No minimum compensation to the Bidder is guaranteed. Quantities indicated for each item in the Mandatory Price Sheet are estimates only and are based upon previous usage for a one-year period. These estimates should not be construed as a minimum or a maximum quantity that TXDPSs may order.

HUB SUBCONTRACTING PLAN (HSP)

1.0 HISTORICALLY UNDERUTILIZED BUSINESS PARTICIPATION REQUIREMENTS:

In accordance with Texas Gov't Code §2161.252, each state agency that considers entering into a contract with an expected value of \$100,000 or more over the life of the contract (including any renewals) shall, before the agency solicits bids, proposals, offers, or other applicable expressions of interest, determine whether subcontracting opportunities are probable under this contract.

1.1 Required HUB Subcontracting Plan

The Department is committed to promoting full and equal business opportunities for Historically Underutilized Businesses (HUBs) state contracting by directly contracting with HUBs or indirectly through subcontracting opportunities. The Department has determined that subcontracting opportunities are probable for this solicitation. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit a HUB Subcontracting Plan (HSP) with their response to the bid solicitation.

Note: Responses that **do not** include a completed HSP shall be **rejected** pursuant to Texas Gov't Code 2161.252(b)

1.2 CPA Centralized Master Bidder's List

Respondents may search for HUB subcontractors in the CPA's Centralized Master Bidders List (CMBL) HUB Directory, which is located on the CPA's website at <http://www2.cpa.state.tx.us/cmb/cmbhub.html>.

NIGP Codes: 962-86 FREIGHT, 962-78 EMBROIDERY AND EMBOSSING SERVICES, 640-25 BOXES, SHIPPING

1.3 Minority & Women Organization

Respondents subcontracting must provide written notification of the subcontracting opportunity you listed in SECTION B-1 to two (2) or more trade organizations or development centers in Texas. A list of trade organizations and development centers that have expressed an interest in receiving notices of subcontracting opportunities is available on the Statewide HUB Program's webpage at <http://www.window.state.tx.us/procurement/prog/hub/mwb-links-1/>.

1.4 Post-award HSP Requirements

The HSP shall be reviewed and evaluated prior to contract award and, if accepted, the finalized HSP will become part of the contract with the successful respondent(s).

After contract award, the Department may coordinate a post-award meeting with the successful respondent to discuss HSP reporting requirements. The contractor must maintain business records documenting compliance with the HSP, and must submit monthly subcontract reports to the Department at dpshub@dps.texas.gov by completing the HUB "[Prime Contractor Progress Assessment Report](#)." This monthly report is required as a condition for payment to report to the agency the identity and the amount paid to all subcontractors.

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include transportation and delivery under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

*In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate percentage of the contracts expected to be subcontracted to HUBs with which the respondent **does not** have a **continuous contract*** in place for **more than five (5) years** shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.*

SECTION 2 RESPONDENT'S SUBCONTRACTING INTENTIONS (CONTINUATION SHEET)

This page can be used as a continuation sheet to the HSP Form's page 2, Section 2, Item b. Continue listing the portions of work (subcontracting opportunities) you will subcontract. Also, based on the total value of the contract, identify the percentages of the contract you expect to award to Texas certified HUBs, and the percentage of the contract you expect to award to vendors that are not a Texas certified HUB (i.e., Non-HUB).

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include transportation and delivery under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

SECTION 3 SELF PERFORMING JUSTIFICATION (If you responded "No" to SECTION 2, Item a, you must complete this SECTION and continue to SECTION 4.)

If you responded "No" to SECTION 2, Item a, in the space provided below **explain how** your company will perform the entire contract with its own employees, supplies, materials and/or equipment, to include transportation and delivery.

SECTION 4: AFFIRMATION

As evidenced by my signature below, I affirm that I am an authorized representative of the respondent listed in SECTION 1, and that the information and supporting documentation submitted with the HSP is true and correct. Respondent understands and agrees that, if awarded any portion of the requisition:

- The respondent will provide notice as soon as practical to all the subcontractors (HUBs and Non-HUBs) of their selection as a subcontractor for the awarded contract. The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). (The PAR is available at <http://www.window.state.tx.us/procurement/prog/hub/hub-forms/progressassessmentrpt.xls>).
- The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

IMPORTANT: If you responded “No” to **SECTION 2, Items c and d** of the completed HSP form, you must submit a completed “HSP Good Faith Effort - Method B (Attachment B)” for **each** of the subcontracting opportunities you listed in **SECTION 2, Item b** of the completed HSP form. You may photo-copy this page or download the form at <http://window.state.tx.us/procurement/prog/hub/hub-forms/hub-sbcont-plan-gfe-achm-b.pdf>.

SECTION B-1: SUBCONTRACTING OPPORTUNITY

Enter the item number and description of the subcontracting opportunity you listed in SECTION 2, Item b, of the completed HSP form for which you are completing the attachment.

Item Number: _____ Description: _____

SECTION B 2: MENTOR PROTÉGÉ PROGRAM

If respondent is participating as a Mentor in a State of Texas Mentor Protégé Program, submitting its Protégé (Protégé must be a State of Texas certified HUB) as a subcontractor to perform the subcontracting opportunity listed in **SECTION B-1**, constitutes a good faith effort to subcontract with a Texas certified HUB towards that specific portion of work.

Check the appropriate box (Yes or No) that indicates whether you will be subcontracting the portion of work you listed in SECTION B-1 to your Protégé.

- Yes (If *Yes*, continue to SECTION B-4.)
- No / Not Applicable (If *No* or *Not Applicable*, continue to SECTION B-3 and SECTION B-4.)

SECTION B 3: NOTIFICATION OF SUBCONTRACTING OPPORTUNITY

When completing this section you **MUST** comply with items **a, b, c and d**, thereby demonstrating your Good Faith Effort of having notified Texas certified HUBs and trade organizations or development centers about the subcontracting opportunity you listed in SECTION B-1. Your notice should include the scope of work, information regarding the location to review plans and specifications, bonding and insurance requirements, required qualifications, and identify a contact person. When sending notice of your subcontracting opportunity, you are encouraged to use the attached HUB Subcontracting Opportunity Notice form, which is also available online at <http://www.window.state.tx.us/procurement/prog/hub/hub-subcontracting-plan>.

Retain supporting documentation (i.e., certified letter, fax, e-mail) demonstrating evidence of your good faith effort to notify the Texas certified HUBs and trade organizations or development centers. Also, be mindful that a working day is considered a normal business day of a state agency, not including weekends, federal or state holidays, or days the agency is declared closed by its executive officer. The initial day the subcontracting opportunity notice is sent/provided to the HUBs and to the trade organizations or development centers is considered to be “day zero” and does not count as one of the seven (7) working days.

- a.** Provide written notification of the subcontracting opportunity you listed in SECTION B-1, to three (3) or more Texas certified HUBs. Unless the contracting agency specified a different time period, you must allow the HUBs at least seven (7) working days to respond to the notice prior to you submitting your bid response to the contracting agency. When searching for Texas certified HUBs and verifying their HUB status, ensure that you use the State of Texas’ Centralized Master Bidders List (CMBL) - Historically Underutilized Business (HUB) Directory Search located at <http://mycpa.cpa.state.tx.us/tpasscmlsearch/index.jsp>. HUB status code “A” signifies that the company is a Texas certified HUB.
- b.** List the **three (3) Texas certified HUBs** you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the company’s Texas Vendor Identification (VID) Number, the date you sent notice to that company, and indicate whether it was responsive or non-responsive to your subcontracting opportunity notice.

| | | | - Yes - No |

- c.** Provide written notification of the subcontracting opportunity you listed in SECTION B-1 to **two (2)** or more trade organizations or development centers in Texas to assist in identifying potential HUBs by disseminating the subcontracting opportunity to their members/participants. Unless the contracting agency specified a different time period, you must provide your subcontracting opportunity notice to trade organizations or development centers at least seven (7) working days prior to submitting your bid response to the contracting agency. A list of trade organizations and development centers that have expressed an interest in receiving notices of subcontracting opportunities is available on the Statewide HUB Program’s webpage at <http://www.window.state.tx.us/procurement/prog/hub/mwb-links-1/>.

- d.** List **two (2) trade organizations or development centers** you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the date when you sent notice to it and indicate if it accepted or rejected your notice.
