2016 UCR Data Collection:

Executive Summary

According to data compiled by the Department of Public Safety's Uniform Crime Reporting (UCR) program, the overall major crime rate (the number of crimes per 100,000 population) in Texas for 2016 decreased 1.5% compared to 2015. The violent crime rate increased 5.6%, as each offense went up: murder increased by 10.7%; rape rate increased by 7.7%; robbery increased by 3%; and aggravated assault increased by 6.4%. The overall property crime rate decreased by 2.5%, burglary decreased by 4.1%; larceny-theft decreased by 2.5%. Motor vehicle theft increased by 0.9%. While the overall state index by volume decreased 0.2% compared to 2015, violent crime by volume increased by 7%.

The total number of juvenile arrests in 2016 decreased 5.3% from 2015, and adult arrests decreased 2.3%.

The number of assaults on police officers in 2016 showed a 10.2% increase from 2015. Eight law enforcement officers were reported killed feloniously in the line of duty, while nine died in duty-related accidents in 2016.

In 2016, Texas law enforcement agencies reported 178 incidents of hate crimes involving 201 victims and 210 offenders and 186 unique offenses. This marks an incident decrease of 7.8% over 2015.

Law enforcement agencies reported 196,564 family violence incidents involving 219,782 victims and 219,785 offenders in 2016—an incident increase of 0.9% in family violence occurrences compared to the year before.

Sexual assault data showed 18,349 sexual assault incidents involving 20,237 victims and 17,878 offenders resulting in an incident decrease of 1.5% from 2015.

STATISTICAL ANALYSIS OF CRIME

The UCR Program

In an effort to produce reliable crime statistics for law enforcement administration, scholars, researchers, members of the media, and the public at large seeking information on crime in Texas, the TXDPS UCR program collects crime data from local law enforcement agencies. The UCR program utilizes two different reporting methodologies: Summary reporting (SRS) and the National Incident Based Reporting System (NIBRS). The Summary Reporting System collects data on ten index crimes. By contrast, NIBRS collects a total of 49 offenses. Summary data (and Summary data derived from NIBRS reporting agencies) is used in a statistical

summary tool referred to as the Crime Index. Although arson is an index crime in that the number of reported offenses is collected, arson is not included in the Crime Index.

"While we are pleased that the overall index crime rate has decreased somewhat over the last year, it is concerning that at the same time Texas experienced a significant increase in the actual number of violent crimes, particularly in many of our metropolitan areas," said DPS Director Steven McCraw. "Moreover, we are still relying on a crime index reporting program from the 1930s that does not reflect an accurate picture of the threats posed by criminal enterprise organizations currently operating in our state. Drug and human smuggling, extortion, corruption, bribery, money laundering and kidnapping are just a few of the crimes committed by these ruthless organizations that are not reflected in current UCR data. Greater adoption of the National Incident Based Reporting System (NIBRS) by Texas law enforcement agencies will address these and other categories relevant to accurately assessing the impact of all crime as well as provide greater transparency to the public related to crime in our communities."

Index Crime Rate

The crime rate reported by UCR is defined as the number of crimes committed per 100,000 population. This mechanism allows comparisons between periods of time to be made without being affected by population swings. For 2016, the Texas Crime Rate was 3,185.2 crimes per 100,000 population, a 1.5% decrease from 2015. The crime rate is based on the total Texas UCR reporting agency populations of 27,821,692.

Index Crime Volume

The total number of Index Crimes reported for 2016 was 886,189. This volume of crime represents a decrease of 0.2% when compared to 2015.

Participation

The Texas UCR program, though voluntary, enjoys a high rate of participation with a total of 1,059 law en-forcement agencies either directly reporting UCR data to the Department or being covered-by their county Sheriff.

The FBI provides yearly population totals for UCR participating agencies (based on current Census data estimations.) The 1,059 agencies represent coverage of 99.9% of the state's total population.

2016 CRIME DASHBOARD

CRIME BY VOLUME

| Texas Index Crime by Volume | | | | | | | | | |
|-----------------------------|---------|---------|----------|--|--|--|--|--|--|
| Offense | 2016 | 2015 | % Change | | | | | | |
| Murder | 1,473 | 1,314 | 12.1 | | | | | | |
| Rape | 13,320 | 12,208 | 9.1 | | | | | | |
