

Driver License / Identification Card Inquiries

The information contained in this document replaces Chapter 6 of the TLETS/NLETS operating manual.

Driver license information is available through TLETS from the Texas Department of Public Safety (DPS) Driver License Division (DLD) database and from other states using the NLETS network. DLD is a computerized system owned and maintained by the DPS.

Personal information obtained from driver license records are protected by Statute. The Motor Vehicle Records Disclosure Act (Texas Transportation Code, Section 730.004) states "Notwithstanding any other provision of law to the contrary, including Chapter 552, Government Code, except as provided by Sections 730.005-730.008, an agency may not disclose personal information about any person obtained by the agency in connection with a motor vehicle record."

- o **Personal information** is information that identifies an individual, including an individual's photograph and/or computerized image, social security number, driver identification number, name, address (but not zip code), telephone number, and medical or disability information.
- o A **motor vehicle record** is any record that pertains to a motor vehicle operator's permit, motor vehicle title, motor vehicle registration, or identification card issued by an agency authorized to issue an identification document.

Personal information obtained from driver license records are also restricted by the Federal Driver Privacy Protection Act of 1994 (18 U.S.C. §2721 et. Seq.). There are specific exclusions in these statutes for use by law enforcement. Therefore, driver license information obtained from the TLETS system is to be used strictly for Criminal Justice and Law Enforcement purposes only and may not be disseminated to the public.

DPS will respond to reasonable requests for information stored in the driver license record so long as the requestor is eligible to obtain it. The general public, tax offices, and other non-criminal justice agencies can obtain driver license information by following other procedures as outlined by DPS.

Driver license information from other states may or may not be classified as public record information. Any non-criminal justice agency or person requesting information on obtaining DL information from another state should be directed to contact the driver licensing agency of that state.

The Driver License System

In April 2009, TxDPS deployed a new Driver License System (DLS). The types of data returned in the driver license response changed substantially.

The DLD database cannot be used to verify if a person is qualified for a defensive driving course; the person is required to obtain a certified copy of a driving record directly from the Department of Public Safety.

Identification Cards

Almost any Texas resident can obtain an Identification Card. Texas residents can have both a driver license and an identification card. Identification card records are stored in DLS and, like the driver license, are assigned a unique eight digit number. The identification card is similar in appearance to the regular driver license with the exception that the words Identification Card are printed on the top front in bold green letters.

Key Factors necessary to obtain an ID certificate:

- o Evidence of name and date of birth acceptable for an ID card (equivalent to those needed to obtain a driver license)
- o No limit on age
- o Must pay a fee
- o No test is required
- o Each person is limited to one ID card
- o Expiration: Next birth date of applicant occurring 6 years after date of application

Driver License / Identification Card Inquiries

Texas Driver License/Identification Card Inquiry

Like the DLD database, DLS database stores both driving records and identification cards. A search into the DLS will yield results for both Driver Licenses and Identification Cards. As customers are identified as having both a driver license and an identification card, the information will be linked together and a single response will contain information from both types of records. Not all records are currently linked together; this process will be ongoing over the next several years.

DLS supports only two types of inquiry formats:

- Status Check – formerly known as the Regular Driver License (RDL) check. Provides basic information regarding the subject: name, physical description, date of birth, most recent address, mailing address, record status, operator license number, card type, class of license, date of expiration, restrictions, restrictions, endorsements, and administrative status. A few other fields will be displayed when applicable: sex offender, communication impediment, organ donor, VISA expiration date, and the hazardous materials endorsement assessment.
- History Check – formerly known as the Complete Driving Record (CPL). Provides the same information as the Driver Status Check as well as information on the driving record of the individual.

Driver License Inquiries may be made by using:

1. Operator License Number (OLN)
2. Name and Date of Birth (NAM/DOB)
3. Name Only

The specification for the formats for interface agencies can be found at:

<http://www.txdps.state.tx.us/tcic2000project>

username: tcic2000

case sensitive password: DPSTCIC7#

TLETS operators may obtain the information using the TLETS (Omnixx™) forms provided by DPS (DL, DQ, DNO, KO, RSDW and QUERY). Address DQ, DNO and KO inquiries to TX to retrieve responses from DLS.

The screenshot shows a web browser window titled "TEXAS DRIVER LICENSE INQUIRY (DL)". The form is divided into several sections:

- AGENCY/CASE DATA:** Includes a field for "Originating Agency Code (ORI)" with the value "TXDPS00B2". There are checkboxes for "Enter X for - DWI:" and "- CPL:".
- PERSON DATA:** Includes a field for "Name (NAM)" and a field for "Date of Birth (DOB)".
- OLN DATA:** Includes five fields for "Operator's License Number (OLN)". The first field is highlighted in green, and the others are in red.
- SPECIAL OPTIONS:** Includes a field for "Control Field (CTL)".

Basics on System Operation

- A search using NAM matches the exact spelling of the last name and first name in the driver license record. Soundex is not being used.
- A search using DOB matches the exact DOB in the driver license record.
- The middle name may be supplied but it is not used to narrow the search
- A search using NAM alone will return a list of possible matches including the full name, the data of birth, the CARD number and the city of residence. If over 50 matches are found, no results are returned.
- If the search is not successful, validate that the information supplied in the inquiry was accurate.
- When the record status indicates the driver is not eligible on a status check, re-inquire using a history check to obtain the active enforcement action.
- When searching by NAM, do not place a space following the comma between the last and first names.
- Inquiries made on individuals with only one name must be made by entering the person's name as the last name followed by a "comma" and the word "NONE" used as a first name. Example: Subjects only name is "APOLLO", enter APOLLO,NONE .

Driver License / Identification Card Inquiries

Texas Response Format:

The responses from DLS vary depending on the type of request made and what types of matches are made in the database with the data input. DLS no longer supports the use of the Alarms which were used in the DLD database. DLS will provide record status, administrative status and card status to replace the Alarms. The driver history record will no longer list the history in chronological order, but will categorize the history into Enforcement Actions, Convictions, and Crash (accident) information. Each category of driving history will be grouped together in the response.

Examples of the types of returns with detailed explanations of the field contents are seen below.

Search Results Do Not Yield A Match:

Driver License / Identification Card Inquiries

ADMIN STATUS (Administrative Status) provides information about the driver, but does not have any affect on the person's eligibility to drive. Examples of Administrative Status:

- Prove Identity, Possible Fraud
- Licensed in Another State/Jurisdiction
- Reported Deceased
- Occupational License Cancelled

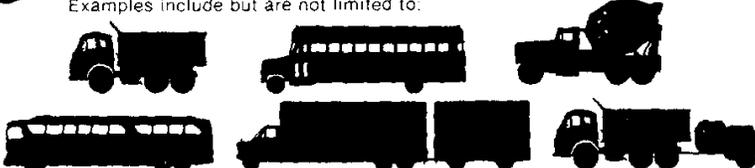

CARD STATUS provides information about the Driver License, ID card or Occupational License. Card Status does not affect a person's eligibility to drive. Examples of Card Status:

- Verify Issue former state
- Revoked Sex Offender
- Voluntary Surrender
- Voluntary Surrender CSO
- Returned by Post Office
- Expired vision waiver
- Expired limb waiver
- Denied vision waiver
- Denied limb waiver
- Vision waiver needed
- Required Downgrade

CARD TYPE will be DL for Driver License or ID for Identification Card

Driver License / Identification Card Inquiries

CLASS:

| | |
|----------|--|
| A | <p>Any combination of vehicles with a GCWR of 26,001 or more pounds provided the GVWR of the vehicle(s) being towed is in excess of 10,000 pounds. (Holders of a Class A license may, with any appropriate endorsements, operate all vehicles within Class B and C.)</p> <p>Examples include but are not limited to:</p>  |
| B | <p>Any single vehicle with a GVWR of 26,001 or more pounds, or any such vehicle towing a vehicle not in excess of 10,000 pounds GVWR, and any vehicle designed to transport 24 or more passengers including the driver. (Holders of a Class B license may, with any appropriate endorsements, operate all vehicles within Class C.)</p> <p>Examples include but are not limited to:</p>  |
| C | <p>Any single vehicle, or combination of vehicles, that does not meet the definition of Class A or Class B as contained herein, but that either is designed to transport 16 or more passengers including the driver, or is placarded for hazardous materials.</p> <p>Examples include but are not limited to:</p>  |
| M | <p>Any motorcycle or moped.</p>  |

Persons holding a CLASS B or C license may tow a farm trailer GVWR up to 20,001 lbs.

COMMERCIAL DRIVER LICENSE (CDL) IS REQUIRED IF

1. The combination of vehicles if Gross Combination Weight Rating (GCWR) is 26,001 lbs. or more and the towed unit exceeds 10,000 lbs. Gross Vehicle Weight Rating (GVWR), or if towing unit GVWR is 26,001 lbs. or more.
2. The single vehicle with GVWR of 26,001 lbs. or more.
3. The Vehicle is designed to transport more than 16 passengers (including driver.)

COMM IMPED indicates whether the subject has a Communication Impediment. This field will contain Y if Yes and N when No and will be blank if unknown. The information used to populate this results field is currently being collected, so the information may not be accurate at this time.

Driver License / Identification Card Inquiries

CONVICTION describes the subject's driving convictions including the offense date (**OFF DT**), conviction date (**CONV DT**), and location (**OFFENSE LOC**). **CMV** indicates whether the conviction occurred in a commercial vehicle and **HAZMAT** indicates if the conviction occurred while transporting hazardous materials. A list of possible offenses (effective April, 2009) is found in Appendix B.

CRASH information describes the subject's accidents. Included are crash date (**CRASH DT**), crash location (**CRASH LOC**), crash number (**CRASH#**), and Severity (**SEVERITY**). **CMV** indicates whether the accident occurred in a commercial vehicle and **HAZMAT** indicates if the accident occurred while transporting hazardous materials.

ENDORSEMENTS:

| ENDORSEMENT CODES | | | |
|-------------------|--------------------------|---|-------------------------------|
| T | Double or triple trailer | H | Hazardous materials: CDL only |
| P | Passenger: CDL only | S | School Bus: CDL only |
| N | Tank Vehicle: CDL only | X | Combination N and H: CDL only |

ENFORC ACTN describes an enforcement action, such as a driver license suspension, that has been imposed on the subject including the location (**STATE**) that the action was imposed. Together with the **STATUS**, **ACTIVE BEGIN DT**, **END DT**, and **LIFT DT**, this field will fully describe the enforcement action. The status will indicate whether a particular action is pending, active, lifted or expired. The begin date will indicate the date the enforcement action is to begin. The ending date for an enforcement action that contains the value "12-31-9999" indicates that the enforcement action is indefinite. Once the subject meets required compliances, the EA status will be updated and will be set to "lifted" and the lift date will be populated. It is important to note that certain driver license suspensions and other disqualification actions may be entered with pending beginning dates. For example, the police action for "Driving While License is Suspended" should not be taken prior to the effective date of the suspension. A list of possible values (effective April, 2009) is found in Appendix A.

EXPIR DATE indicates the date of expiration for the card

HME THR ASMT reflects the subject's assessment when they carry the H – Hazardous materials endorsement. Value will be Approved or Denied. If approved, the expiration date will be included.

ORGAN DONOR indicates whether the subject has designated their desire to be an organ donor. This field will contain Y if Yes and N when No and will be blank if unknown.

REC STATUS (Record Status) indicates a person's eligibility to drive. Possible Values follow:

| | |
|-------------------------------------|---|
| Eligible | The subject is eligible to drive; there are no active enforcement actions. This record status does not indicate that the subject has a valid Driver License, only that they are eligible. |
| Eligible Non CDL – Not Eligible CDL | The subject is eligible to drive non-commercial vehicles but currently is disqualified to have a Commercial Driver License |
| Not Eligible | The subject is not eligible to drive and has an active enforcement action. |

Driver License / Identification Card Inquiries

RESTRICTIONS: Lists the restrictions that the subject must adhere to. A list of restrictions (effective April 2009) is found in Appendix C.

SEX OFF indicates whether the subject is a convicted sex offender. This field will contain Y if Yes and N if No and will be blank if unknown.

TYPE will contain CDL if the subject has a Commercial Driver License, DL if the subject has a Driver License

VISA EXP if non-blank indicates the date the subject's VISA expires.

Driver License Image Retrieval

The Driver License Image Retrieval (DLIR) system assists law enforcement agencies by making it possible to view the latest digital driver license image of a Texas driver, via the internet, in support of a law enforcement investigation. The DLIR system is offered to federal, state and local law enforcement agencies, at no charge. Users of the DLIR system can retrieve a driver license image by the driver license number or by a search on last name and physical identifiers. Each agency obtains access to the DLIR system by submitting a User Agreement for the agency and an Image Retrieval Security Request form for each commissioned officer or investigative support person that will utilize the system. Contact the Driver License Image Retrieval Administrator at (512) 424-5755 to set up an account.

<https://www.texasonline.state.tx.us/NASApp/txdps/DPSImageManager>

Manual Checks / Communicating with DLD

Manual checks from the DLS are available when information is not available online, is not clear or contains obvious errors. DLD manual searches are available during normal business hours only. Hours are Monday through Friday, from 7:30 am until 5:00 pm. Routine manual search requests are usually processed within two hours. Operators will need to send an administrative message to mnemonic **LIVI** and addressed to:

DPS Austin
Attention: DLD

The DLD Driver Improvement Bureau (DIB) handles certified copies of driver license records and suspension status verification during normal business hours. Hours are Monday through Friday, from 7:30 am until 5:00 pm. Agency requests for certified copies of driver license records and verification of suspension status requests are to be addressed to mnemonic **DIC1**, and addressed to:

DPS Austin
Attention: DIB

The Driver License Division maintains a website with other pertinent information. See:

<http://www.txdps.state.tx.us/difle>

User Name: DIFLE

Case Sensitive Password: xm3692TL

Driver License / Identification Card Inquiries

| TFC | Texas Family Code |
| TPC | Texas Penal Code |
| TRC | Texas Transportation Code |

Driver License / Identification Card Inquiries

Driver License Inquiries through NLETS

NLETS operators may obtain driver license status and history information from other states through NLETS. NLETS also supports a check on Diplomatic Driver Licenses and the Mexican Licencia Federal Information System (LIFIS). Omnixx operators may use the DQ, DNQ, RSDW, QUERY and KQ forms for NLETS inquiries. Not all states will respond to the DNQ message. Refer to the NLETS help file (NOQ) for more information.

The NLETS User and Technical Guide (found under Help > Documents in Omnixx Force) publishes the following abbreviations as recommendations to the member states for responding to Driver Record inquiries:

| PREFIX | TRANSLATION |
|---------------|---------------------------|
| NAM | Name |
| RAC | Race |
| SEX | Sex |
| HGT | Height |
| WGT | Weight |
| HAI | Hair Color |
| EYE | Eye Color |
| SOC | Social Security Number |
| OLN | Driver License Number |
| OLT | Type Of License |
| EXP | Expiration Date |
| REST | Restrictions On License |
| STATUS | Current Status Of License |

Not all states use these abbreviations. Typically, states will return, at minimum, the subject's name, address, physical description, license number, license type, restrictions and current status.

Diplomatic Driver License

The U.S. Department of State is responsible for issuing Driver Licenses to all diplomatic/consular personnel and their dependents that reside in the U.S. Driver record information is obtained by addressing the standard NLETS Driver Inquiry transactions to POE code US.

Driver History Transactions

The NLETS Driver History Transaction (KQ) provides optional fields of ATN and PUR. It is recommended that law enforcement use these fields to document the requestor and the reason for the inquiry should any question come up in the future.

NLETS Manual Checks

Use the NLETS help files (send AM transaction to xxOLNHELP where xx is the State POE code) to get precise information on a state's manual check process. Typically, manual checks are supported by an administrative message to xxOLN0000.

Driver License / Identification Card Inquiries

NLETS Mexican Federal Licencia Federal Information System (LIFIS) Inquiry

Effective November 21, 1991 the United States recognized the commercial driver license issued by the Secretaría de Comunicaciones y Transportes (SCT), the Licencia Federal de Conductor, as being comparable to a U.S. issued commercial driver license (CDL). It is likely that Texas enforcement officers will encounter Mexican drivers with a Licencia Federal legally operating a commercial motor vehicle (CMV) in the U.S. Such operations should comply with all safety and other requirements, e.g., driver licensing, fuel taxes, registration taxes, vehicle safety.

The Licencia Federal Information System (LIFIS) responds to all NLETS driver license queries (DQ), regardless of the type of ORI assigned to them, e.g. FBI or NLETS. Use a POE code **MX**. The LIFIS database currently only responds to requests using the operator license number (OLN). Inquiries by name and date of birth and/or driver history (KQ) inquiries into LIFIS may be supported in the future.

Mexican state issued driver license are NOT valid for operating a CMV in the United States and are will not return a response for an inquiry through NLETS.

LIFIS Key Information

Refer to the schematic below for field location on the on the Licencia Federal.

1. **Date of Birth:** There is no date of birth field visible on the Licencia Federal de Conductor. DOB information is included as the first six numbers in the **RFC** number field at the bottom right of the license. The six numbers that indicate birth date are displayed as year-month-day. Three additional numbers in the RFC number field are used as tiebreakers to ensure the uniqueness of the license.

| | | |
|---|--------------|-------------|
| SECRETARIA DE COMUNICACIONES Y TRANSPORTES CATEGORIA | | |
| LICENCIA FEDERAL DE CONDUCTOR | | "BC" |
| NOMBRE (Name) | | PHOTO |
| DOMICILIO (Address) | | |
| LIC. NO. <u>DE102041</u> | R.F.C. _____ | |
| EXP | REF | VENC |

2. **Categorias:** There are 6 cartegorias (classes) issued by the SCT. These classes do not correspond to CDL licenses issued in the United States. Catagorias are listed in the table below.

Driver License / Identification Card Inquiries

CATEGORÍAS OF LICENCIA FEDERAL ISSUED BY THE MEXICAN SCT/DGAF:

| <i>Class</i> | <i>Explanation</i> |
|--------------|---|
| A | Authorizes holder to operate all sizes of passenger buses. The bus can carry mixed cargo, (e.g., under the bus) but NOT placardable amounts of hazardous material. This is roughly comparable to a U.S. class B CDL with a passenger endorsement. Note. A limited number of this categoria were previously issued to airport and seaport taxi drivers, but with a restriction on the back of the license to 12 passenger maximum. |
| B | Authorizes holder to operate all commercial freight trucks and combinations, excluding carrying placardable amounts of hazardous materials. This is roughly comparable to a U.S. class A CDL with endorsements for tank, and double/triples. |
| C | Authorizes holder to operate commercial straight freight trucks (with a maximum of 3 axles, including any trailer axle) excluding hazardous materials. This is roughly comparable to a U.S. class B CDL with a tank endorsement. |
| D | There is no comparable CDL definition. Authorizes holder to operate automobiles and small buses which do not exceed 7,716 pounds (3500kg) or have a capacity to carry no more than 13 passengers (including the driver who also serves as the tour guide) for purposes of tourism. |
| E | Authorizes holder to operate any type of freight truck, including combination vehicles, and includes carrying placardable amounts of hazardous materials. This is roughly comparable to a U.S. class A CDL with endorsements for hazardous materials, tank, and double/triples. |
| F | Taxi drivers operating from any airport or seaport in Mexico. Note. This is because airports and seaports are federal and require a federal license, similar to driving a commercial vehicle on a federal road. |

3. **LIC (OLN):** The combination of license number and category in a LIFIS inquiry is equivalent to the OLN field in an inquiry of a U.S. commercial license number. The inquiry must include the LIC number from the card along with the Categoria in the OLN field of the inquiry. LIC numbers begin with alpha characters, which must be included as shown on the license. If there is more than one category on the document, users can make separate inquiries for each category or include more than one category as part of the inquiry number. Multiple categories must be entered at the end of the LIC number without spaces.

4. **Expiration Date:** The “VENC” field (found on the lower right corner of license) indicates the date of expiration of the document in day-month-year order. When the document expires, a new document is issued; the new document indicates the driver now has been issued his or her second 10-year document by placing the letter “W” in front of the existing letters as the beginning of the license number. Similarly, the next license issued begins with an “X” indicating that license document is for a driver with over 20 years since the original Licencia Federal was issued to that driver. It should be noted that **EXP** does not represent the expiration date. EXP is the date of issue. (EXP is shown in day – month – year order)

5. **Restrictions:** The top back of the license has a series of preprinted boxes. The pre-printed restriction box labeled LENTES (eye glasses) is applicable to operating a CMV in the United States. If the LENTES box contains the word “SI”, the driver must be wearing corrective lenses, contact or eye glasses, to operate a CMV. Other pre-printed restrictions may be marked; these would provide useful medical conditions of the driver, should he or she be involved in an accident. If the driver is restricted to operating a CMV in Mexico, the restriction would be documented in the large comment field labeled Observaciones. Licencia Federal are manually typed in field offices around Mexico; restriction phrases in the Observaciones are not standardized. It is expected this restriction phrase will be standardized when license issuance is computerized in Mexico.

Driver License / Identification Card Inquiries

LIFIS Response information

Licenses not in the database at the time of the inquiry will be updated within 15 or less days to show the outcome of the verification. Status information will be returned on any subsequent NLETS checks. NLETS responses from LIFIS use the following status indicators:

- o If the license information is not in the database at the time of the initial inquiry, the status will indicate this
- o by using the word CHECKING. This means the current status is being obtained from Mexico;
- o If the license information was previously added, then the current status of the Licencia Federal will be returned. Possible status responses include VALID, EXPIRED, DISQUALIFIED, NOT ISSUED;
- o If Mexico has not responded within 15 days, the status returned will be ASSUMED NOT ISSUED.

Examples of these types of returns are in the

For the Licencia Federal to be valid to operate a CMV in the U.S., the holder must either have received a new license document issued in the last two years, or their license document must have been re-validated for all intervening years. The re-validation is indicated by an embossment(s) in the REF field, located in the lower middle part of the license. If the embossments in the REF field do not indicate the license has been re-validated for each of the two year periods up to and including the date when you inspect the document, the driver is not currently valid to be operating a CMV. To assist users with determining if the driver has obtained the required two year re-validation, LIFIS responses spell out the word EXPIRES to make it explicit when the current permission to drive a CMV expires.

The address returned by LIFIS is for the official record-keeping city and state. (Where the license was originally issued.) The Mexican licensing office listed by address in a LIFIS return is responsible for maintaining the permanent licensing file of the driver. Mexican national drivers who have moved from the original city of license can be traced through the original licensing office.

Additional Information

Additional information is available from NLETS by using the NLETS Help Files. In Omnix, use transaction code **NHF** to access NLETS Help. Information can also be obtained through the Federal Motor Carrier Safety Administration, by calling the toll free number **800-528-4020**.
