TEXAS DEPARTMENT OF PUBLIC SAFETY — UNIFORM CRIME REPORTING

CRIME IN TEXAS : 2009

Annual Report of 2009 UCR Data Collection: Crime in Texas 2009 Overview

The major crime rate in Texas increased slightly in 2009, according to data compiled by the Texas Department of Public Safety's Uniform Crime Reporting Program, while the violent crime rate was down. The Department of Public Safety compiles the statistics collected each year by more than 1,000 local police agencies.

Compared with 2008, the crime rate—the number of crimes per 100,000 population in Texas—increased 0.3 percent in 2009. The violent crime rate decreased 3.3 percent in 2009 from 2008. The property crime rate increased 0.8 percent in 2009.

Of the seven index crime rates, murder was down 3.6 percent; motor vehicle thefts decreased by 11.9 percent in 2009. Rape increased 1.5 percent in 2009 over the previous year.

The number of juvenile arrests in 2009 decreased 4.4 percent from 2008, while adult arrests increased 1.9 percent.

The number of assaults on police officers in 2009 showed a 9.2 percent decrease from 2008. Six law enforcement officers were killed feloniously in the line of duty in 2009, and two died in duty-related crashes.

The Texas Uniform Crime Reporting Program also collects statistics on hate crimes and family violence incidents.

In 2009, Texas law enforcement agencies reported 166 incidents of hate crimes involving 175 victims and 187 offenders. This was a decrease of 32.5 percent over 2008.

Law enforcement agencies reported 196,713 family violence incidents involving 212,106 victims and 207,315 offenders in 2009. This was an increase of 1.7 percent over 2008.

STATISTICAL CRIME ANALYSIS

The UCR Program

In an effort to quantify the increases and decreases in the number of crimes committed in Texas, the Uniform Crime Reporting program (UCR) collects reports of crimes and arrests from Texas law enforcement agencies. This information is printed in *Crime in Texas* and in periodic special news releases.

Crime Index

To track the variations in crime, the UCR data collection program uses a statistical summary tool referred to as the Crime Index. Rather than collecting reports of all crimes that were committed in a particular year, UCR collects the reports of seven index crimes. The crimes in this group are all serious, either by their very nature or because of the frequency with which they occur, and present a common enforcement problem to police agencies. Crimes within this index can be further categorized as violent crimes, which include murder, forcible rape, robbery and aggravated assault, or as property crimes, which consist of burglary, larceny-theft and motor vehicle theft. By reducing the overall occurrence of crime to this Crime Index, the annual comparison of crime trends is simplified. Although arson is an index crime in that the number of reported offenses are collected, arson is not included in the Crime Index.

Index Crime Volume

The total estimated number of Index Crimes reported for 2009 was 1,116,939. This volume of crime represents an increase of 2.2 percent when compared to 2008.

Index Crime Rate

The crime rate reported by UCR is defined as the number of crimes committed per 100,000 population. This mechanism allows comparisons between periods of time to be made without being affected by population swings. For 2009, the Texas Crime Rate was 4,507 crimes per 100,000 population, a 0.3% increase from 2008. The crime rate is based on the 2009 Texas population of 24,782,302.

Data Estimation

Although the Texas UCR program enjoys a high rate of participation among Texas' law enforcement community, not every agency reports its crime information. To provide data that is comparable to other years, it is necessary to estimate the information for non-reporting agencies. In 2009, 1,027 law enforcement agencies participated in the UCR program representing 99.9 percent of the population.

Crime by Volume

Offense	2009	2008	% Change
Murder	1,327	1,373	-3.4%
Rape	8,286	8,004	+3.5%
Robbery	38,041	37,757	+0.8%

Index Crime Total	1,116,939	1,093,428	+2.2%

Crime Rate by Offense

Offense	2009	2008	% Change
Murder	5.4	5.6	-3.6%
Rape	33.4	32.9	+1.5%
Robbery	153.5	155.2	-1.1%
Aggravated Assault	299.1	314.4	-4.9%
Violent Crime Total	491.4	508.2	-3.3%
Burglary	969.2	946.5	+2.4%
Larceny-Theft	2737.2	2688.9	+1.8%
Motor Vehicle Theft	309.2	351.1	-11.9%
Property Crime Total	4015.6	3986.6	+0.8%
Index Crime Total	4507.0	4494.7	+0.3%

Arson

In 2009, reported arson offenses decreased 5.3 percent from 2008. Property damage from arson was reported at over \$158 million in 2009.

- 6,027 arsons in 2009
- 6,363 arsons in 2008

Property Value

The value of property stolen during the commission of Index Crimes in 2009 was more than \$1.9 billion.

The value of stolen property recovered by Texas law enforcement agencies in 2009 was more than \$564 million.

MOST REQUESTED TEXAS ARREST TOTALS

Texas Arrests	2009	2008	% Change
Murder	837	895	-6.5%
Aggravated Assault	24,247	24,022	+0.9%
Motor Vehicle Theft	5,372	6,337	-15.2%

HATE CRIME

The Texas Hate Crime Act defines hate crimes as crimes motivated by prejudice and hatred, including incidents for which statistics are kept under the federal Hate Crimes Statistics Act. The federal law defines hate crimes as crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity or disability.

The Texas Hate Crimes Act directs every law enforcement agency within Texas to report bias offenses to the Department of Public Safety.

Bias Motivation

The largest percentage of hate crime reports were racial in nature. The second largest was ethnicity/national origin. The third most common bias was sexual orientation. The fourth most common bias was religious and the fifth was disability.

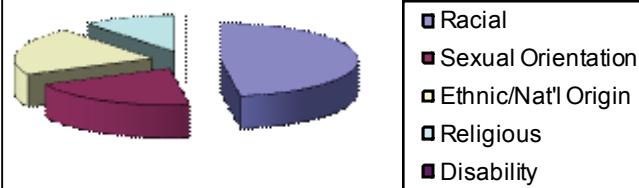

Volume

The total number of reported Texas hate crime incidents in 2009 was 166. This represents a decrease of 32.5 percent when compared to 2008. These incidents involved 175 victims, 187 offenders and resulted in a total of 169 offenses.

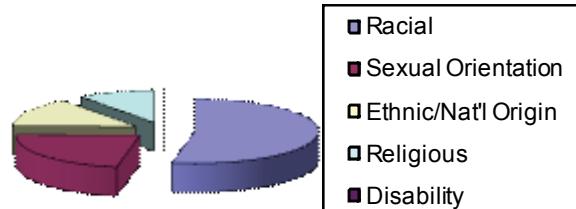

HATE CRIME VOLUME

Offenses

Offenses in the hate crime data collection program are defined in accordance with federal Uniform Crime Reporting definitions and do not necessarily conform to Texas state definitions. Complete offense definitions are available in the *Crime in Texas* annual publication or from UCR upon request.

Hate Crime offense information falls into the eight index crimes—murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson—plus simple assault, intimidation and vandalism. Of these offense categories, aggravated assault, simple assault, intimidation and vandalism accounted for 96 percent of all bias crime offenses in 2009.

HATE CRIME OFFENSES

Offenses	Volume	%
Murder	0	0.0
Robbery	3	1.8
Aggravated Assault	26	15.4
Burglary	2	1.2
Larceny-Theft	0	0.0

Simple Assault	45	26.6
Intimidation	30	17.8
Vandalism	61	36.1
TOTAL	169	100%

Victims

Information on the victims of hate crimes is limited to victim type. While the bias motivation information identifies the offender's bias, the victim may not actually belong to the group the offender sought to harm. For this reason, information on the victim's group membership is not recorded.

Victim type in the hate crime data collection program is listed as: individual, business, financial institution, government, religious organization, other and unknown. Of the victim types, individuals were the main hate crime target.

HATE CRIME VICTIM TYPE

Victim Type	Volume	%
Individual	154	91.1
Business	8	4.7
Financial Institution	0	0.0
Government	1	0.6
Religious Organization	3	1.8

FAMILY VIOLENCE

The Texas Family Code defines family violence as an act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault, or a threat that reasonably places the member in fear of imminent physical harm. The law excludes the reasonable discipline of a child. By definition, "Family" includes individuals related by consanguinity (blood) or affinity, (marriage or former marriage), biological parents of the same child, foster children, foster parents, and members or former members of the same household (including roommates). Senate Bill 68 of the 77th Legislature amended the Family Code to include "Dating Violence". The "Dating Relationship" means a relationship between individuals who have or have had a continuing relationship of a romantic or intimate nature.

	2009	2008	Pct Change
Incidents	196,713	193,505	+1.7

Offenders

In 2009, a reported 207,315 offenders were involved in incidents of family violence.

Family Violence Offenders by Known Age**Victims**

Incidents of family violence in 2009 involved a reported 212,106 victims.

Family Violence Victims by Known Age

Officers

Potential assaults on peace officers are a serious problem inherent to police intervention and investigation of family violence. In 2009, during the course of reported family violence incidents, 385 Texas law officers were assaulted. During this same period 4,706 assaults were made on law officers during all types of police activity.

Offenses

Family violence offense information falls into six general categories: assaults, homicides, kidnapping/abductions, robberies, forcible sex offenses, and non-forcible sex offenses. Of the six main categories, assaults accounted for 96.9 percent of all offenses.

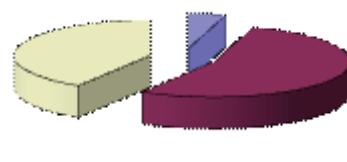

FAMILY VIOLENCE OFFENSES

Type	Group %	Offense	%
Assaults	96.9	Aggravated Assault	14.9
		Simple Assault	74.1
		Intimidation	7.9
Homicides	0.1	Murder & Nonnegligent Manslaughter	0.09
		Negligent Manslaughter	0.01
Kidnapping	0.3	Justifiable Homicide	0.0
		Kidnapping/Abduction	0.3
Robbery	0.2	Robbery	0.2
Forcible	0.9	Forcible Rape	0.9
		Forcible Sodomy	0.2
Sex Offenses	2.3	Sexual Assault with Object	0.2
		Forcible Fondling	1.0
Non-Forcible	0.1	Incest	0.07
Sex Offenses	0.1	Statutory Rape	0.07

Injuries

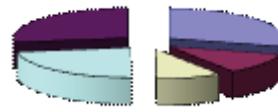

The extent of injuries sustained by victims of family violence are determined by the responding officer. Therefore, all injuries are noted at the time of the report. If later medical attention indicates that the injuries were more or less severe than noted by the responding officer, this information is not included in the family violence report. The majority of reported injuries (54 percent) were minor; in 41 percent of family violence reports "no injury" was recorded. Major injuries were reported in 5 percent of the cases. Of the major injuries, severe lacerations were the most common at 29 percent. Possible internal injuries were reported in 27 percent of the cases and apparent broken bones were noted in 11 percent of the cases.

Type of Family Violence Injuries

- Major
- Minor
- No Injury

Family Violence Major Injuries

- Laceration
- Broken Bones
- Unconsciousness
- Other
- Internal

Weapons

The most common weapon involved in family violence cases was physical force through the use of hands, feet and fists (strong arm), which accounts for 79 percent of the incidents. The Texas Family Violence law considers the use of threats and intimidation to be serious enough to report and, thus, 8 percent of the reports were listed as involving no weapons. Knives or cutting instruments (4 percent), blunt objects (3 percent), firearms (2 percent) and other (5 percent) account for the remaining cases. Included in the "other" weapons category are: motor vehicles, poison, explosives, fire, drugs, unknown, and miscellaneous weapons.

Weapons Used in Family Violence

- Strong Arm
- None
- Knife
- Blunt Object
- Firearm
- Other
