

# MEET THE REDESIGNED TEXAS DRIVER LICENSE AND ID CARD

## New Driver License & ID Cards

The Texas Department of Public Safety (DPS) began issuing newly designed Driver License (DL), Identification (ID) and Election Identification Certificate (EIC) cards to Texans on August 18, 2025.

## Features Include:

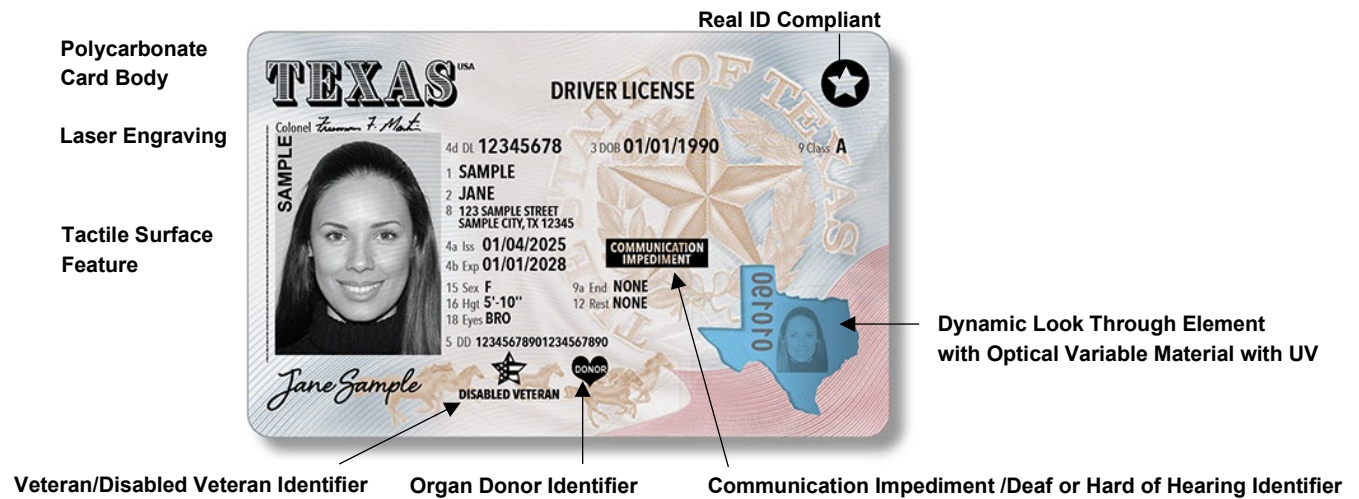

Along with an updated design, the new cards have increased security features, including being made of a polycarbonate material that is tamper resistant and difficult to reproduce, and meet the national standards set by the American Association of Motor Vehicle Administrators (AAMVA). The new cards continue to feature a star in the upper right corner to indicate the card is REAL ID compliant. The new star is laser engraved and will appear black. The current organ donor and veteran identifiers remain the same. This new design provides all information necessary for identification and verification purposes in an easy-to-read format.
