Enclosure

cc: Lieutenant Governor
Members of the Legislature
Members of the Public Safety Commission

INTRODUCTION

The mission of the Texas Department of Public Safety, Unmanned Aircraft Systems (UAS) program, is to provide unmanned aviation support to various law enforcement and public safety services, Homeland Security and Divisions of the Department such as Intelligence and Counterterrorism, Criminal Investigations, Aircraft Operations, Texas Rangers and Texas Highway Patrol. Additionally, aviation support is provided to federal, county and city law enforcement agencies throughout the state. The missions include: search and rescue operations, crime scene photography, crash reconstruction, hazmat scene deployment, major disaster scenes, storm damage, fire scenes, tactical situation, special border operations, communications tower inspections, public affairs events, maintenance and training.

During fiscal year 2024, the six (6) participating Department Divisions (Criminal Investigations Division, Texas Highway Patrol Division, Texas Ranger Division, Training Operations Division, Intelligence & Counterterrorism Division and Aircraft Operations Division) operated 380 small Unmanned Aircraft Systems.

As required by Section 423.008, Government Code, a summary of number of times an unmanned aircraft was used, number of criminal investigations aided by the use of an unmanned aircraft, number of times an unmanned aircraft was used for a law enforcement operations other than a criminal investigation and the type of information collected on an individual, residence or property that was not the subject of a law enforcement operation is included in this report. This summary includes date and time, location, purpose of flight, if the flight was for criminal investigation, if non-law enforcement information was collected and the type of information collected of each flight.

Date	Time	County	Primary Purpose Of Flight	Criminal	Description	Info Collected	Yes Info
