

Sexual Assault Evidence Tracking System

Texas Track-Kit by the Numbers

Track-Kit data from 09/01/2019 – 11/30/2020:

- Total Number of Kits: **11,962**
 - Report Kits: **11,168**
 - Non-Report Kits: **794**
- Survivors who have logged in: **2,809** (23.5%)
- Medical facilities, law enforcement agencies, labs, and prosecutors participating: **1,195**
- Breakdown of FY19-FY20 collections by month (see below)
- Kits by collection county for FY19-FY20

1st Quarter SAK Reporting Due Jan 15th

Law enforcement agencies and labs should report their numbers in Track-Kit by utilizing the Audit feature, Quarterly Reporting option, by January 15th, 2021. The first fiscal quarter covers September 1st – November 30th. For more information about the reporting requirements, please visit the [SAK Audit and Reporting](#) website or contact the DPS Laboratory by email at SAEreporting@dps.texas.gov.

Disabled Track-Kit Accounts

Due to DPS Cyber Security policy, Track-Kit accounts are automatically disabled after 90 days if there is no activity. Please login once every 90 days to keep Track-Kit accounts active. **Survivor accounts are not disabled due to inactivity.**

Out of State/Federal/Military Kits

State law requires the tracking of all sexual assault evidence collection kits collected, investigated or prosecuted in Texas. If a kit is collected in Texas but sent to an out of state or federal/military law enforcement agency (LEA), medical facility users have the ability to assign the kit to an out of state or federal/military LEA. When selecting the receiving LEA in Track-Kit, please select “other - other organization” from the very bottom of the drop down menu. The organizations window will open and you can select either “federal/military LEA” or “out of state LEA”.

A kit may also be collected by an out of state or federal/military medical facility but submitted to a Texas LEA for investigation. If the kit does not contain a Texas SAE tracking barcode, DPS will provide a barcode and survivor card for the kit so that the LEA can enter it into Track-Kit. When selecting the medical facility, please select “other - other organization” from the very bottom of the drop down menu. The organizations window will open and you can select either “federal/military medical facility” or “out of state medical facility”.

STACS DNA Customer Support

Live technical support is available to all users Monday - Friday 8 am - 5 pm CST.

- Toll Free: 855-239-0677
- Email: support@stacsdna.com
- Chat feature within Track-Kit
